

AHA Free Resurfacing Serum

Restores the underlying structure while ensuring that the exterior appearance is flawless-looking. It utilizes a gentle, non-acid sugar complex to smooth away surface imperfections as it increases cell turnover for vitality and skin brilliance. At the same time, it gradually rebuilds firmness for more sculpted, lifted contours.

Glucosamine HCL | gently resurfaces, increases firmness and density of the epidermal and dermal compartments, improves texture, clarity, tone, and radiance

Matrixyl® Synthe'6® | facial architectural peptide supports six skin rebuilding essentials for a firmer matrix and a smoother, more assertive, volumized line-free skin

Rubixyl® | a nature-inspired corneotherapy peptide strengthens epidermal structures, restores cell signaling, and prevents inflamm'aging-induced signs of aging; rehydrates and smooths deep lines and wrinkles

Niacinamide | restructures epidermal barrier, energizes skin tone, and increases firmness and radiance

Carob Seed Extract | accelerates the recovery capacity of the damaged skin, rapidly reducing signs of redness, barrier damage, and tissue damage

Mung Bean Sprout Stem Cells | reduce signs of sensitivity and enhance firmness and elasticity

Garden Sprout Extract | supports your skin's natural detoxifying enzymes while enhancing cellular resistance and promoting the elimination of environmental toxins

Biosaccharide Gum-1 | soothing sugar hydrator softens, hydrates, and imparts immediate and long-lasting softness and comfort

Argan Oil | essential fatty acids that assist in the repair and replenishment of moisturizing barrier lipids; provides antioxidant protection and helps with hydration of the skin

FRAGRANCE: None

pH 5.3

SOLUBILITY Oil and water emulsion

Home Care | Apply 2 pumps to the face and neck in the morning or evening. It may be applied over a treatment serum.
