

# Calm Repair Creme

Buttery-rich creme infuses skin with an intense surge of rejuvenating lipids and ultra-soothing antioxidant plant extracts and phytonutrients. Replaces a dull, sensitive complexion and dry, fine, aging lines with remarkably soft, plump, supple, and instantly comfortable skin in one application. Results improve when applied twice daily and explicitly formulated to rapidly calm and revive the barrier of dehydrated, sensitive, reactive, and rosacea-prone skin. Calm Repair Creme delivers the following Triple-Revival Strategy to repair, protect, and soothe skin instantly and long-term: 1 – Rapid Barrier Repair | Rejuvenating ceramides and a complex of barrier-fortifying lipids in healthy skin are instantly infused between cells to rapidly revive soft, supple, and comfortable skin. 2 – Long-Lasting Barrier Protection | Encapsulated, time-released repair agents bring barrier lipids into youthful balance to inspire long-lasting comfort, hydration, and barrier protection. Multiple antioxidants keep barrier lipids fresh, supple and protected from smog, smoke and other oxidants. 3 – Instant and Long-Lasting Soothing | Beta Glucan, EGCG, Brazilian Gooseberry, and other calming Plant Extracts and Phytonutrients soothe visible redness and additional signs of irritation while helping to interrupt the cycle of inflammation that prolongs sensitivity. The result is skin that feels healthier immediately and acts healthier long-term – even when faced with irritants and environmental pollutants that may have been hard to withstand in the past. The dermatologist tested for sensitivity and irritancy. Does not contain fragrance, essential oils, colorants, volatile alcohols, urea, sulfates, acids, strong emulsifiers, lanolin, mineral oil, formaldehyde-releasing preservatives, parabens, or other commonly used sensitizers. Vegan. FRAGRANCE None pH 5.2 SOLUBILITY Oil-in-water emulsion
