

# Cellular Reset Barrier Serum

Cellular Reset Barrier Serum is for hormonally aging skin. This advanced formula delivers the exact growth factors skin loses with age, powered by five bioengineered next-generation technologies working to correct visible aging due to hormonal decline. Peauforia™ and Peauvita™ replenish key growth factors that decline with hormonal aging, while Cristalhyal™ and Perfection Primahyal Ultrafiller™ plump and firm skin's surface

Billions of turmeric exosomes add powerful redness-reducing and stress recovery while two powerful antioxidants, astaxanthin and Lipochromin 6™, interrupt and reverse yellowing, crepey skin due to glycation.

- 1) Smooths and reduces deep wrinkles and expression lines for a visibly younger appearance and firmer texture.
- 2) Restores firmer, fuller facial contours, diminishing sagging for a more lifted and defined profile.
- 3) Brightens and balances uneven tone, revitalizing a dull complexion and enhancing healthy radiance.
- 4) Intensely hydrates and plumps thinning skin, improving softness and elasticity.
- 5) Calms redness and visible stress, reduces sensitivity, and evens pigmentation for a more comfortable, uniform complexion.
- 6) Strengthens and repairs the skin barrier, reducing dryness, irritation, and vulnerability to environmental stress.
- 7) Increases resilience and elasticity, helping skin recover from stress and resist future sagging or fatigue.
- 8) Minimizes pores for a flawless complexion.

This lightweight serum won't flake, crack, peel or discolor the skin. All action ingredients included at laboratory or clinically-tested levels.

Does not contain endocrine disruptors, phytoestrogens, soy, gluten, parabens, formaldehyde-donor preservatives, fragrance, essential oils, colorants, phthalates, bisphenol A, propylene

glycol,1,3 dioxane, or toluene. 100% vegan.
