

Cellular Restoring Serum

Boost skin's natural age-corrective reserves. Twelve synergistic time-reversal technologies rapidly infuse into aging skin, leaving it instantly more radiant, soft and dewy fresh. Patented lifting, firming and line-smoothing peptides and clinically tested plant extracts work with skin's supportive architecture to deliver visible age correction.

Within 2 weeks skin starts showing improvement in 16 areas of structural aging.

Minimize obvious signs of age -Smooth forehead lines and expression wrinkles-Reduce wrinkle width and size -Smooth lip lines -Visibly lift, volumize and plump contours -Diminish crisscrossed surface lines- Correct sallowness – Revive youthful elasticity – Reinforce firmness – Strengthen fragile skin – intensify deep hydration – Even skin tone – Awaken radiance and luminosity – Silken texture – Revive satin-like smoothness – Clarify age spots

This lightweight serum won't flake, crack, peel or discolor the skin. When stored in a cool, dark area, the stability of this formula is guaranteed for at least one year. All action ingredients are included at laboratory or clinically tested levels. Does not contain parabens, fragrance, colorants, essential oils. Vegan.

What it takes to make this such a effective product:

Uplevity™ (Acetyl Tetrapeptide-2) | patented anti-gravity tetrapeptide. Helps skin resist the effects of gravity by reinforcing firming architecture. Defines, sculpts and volumizes for improved facial contours and unparalleled firming

Matrixyl® synthe'6® (Palmitoyl Tripeptide-38) | patented facial architectural peptide supports 6 skin structures for

firmer, smoother, stronger, volumized, line-free skin

Rubixyl® (Hexapeptide-48) | cell-signaling corneotherapy peptide strengthens epidermal structures and disrupts inflammaging. Reduces TEWL, revives youthful smoothness and helps refill deep wrinkles

CollRepair™ (Salvia Miltiorrhiza, Niacinamide) | the first anti-glycation ingredient to prevent and remove existing glycation. Improves elasticity, corrects yellow skin tones (sallowness)

DermCom (Crocus Chrysanthus) | cell-to-cell communication extract. Enhances dialogue between keratinocytes and fibroblasts to rejuvenate texture and firmness

Deglysone® (Hypnea Musciformis) | firming red algae protects and restores elasticity and firmness; transforms dull, stiff skin for improved resilience and youthfulness

Glyco-Repair® (Carob Seed) | phyto-repair molecules shorten the recovery rate of aging skin. Rapidly improves signs of redness, barrier and other signs of damage

Plant-C-Stem™ (Mung Bean Sprouts) | extract of mung bean stem cells deflects effects of high energy blue light

Detoxophane (Swiss Garden Cress) | supports skin's natural detoxifying enzymes and pollution-protecting antioxidants. Brightens, fades age spots and diminishes effects of daytime stressors

Niacinamide | multitasking form of vitamin B3. Helps repair skin in multiple ways, including reinforcing barrier ceramides, improving energy levels to shorten repair time, and improving firmness, elasticity and tone

Astaxanthan | the "King of Antioxidants", this orange pigment from microalgae is 1000Xs stronger than Vitamin E and 6000Xs stronger than Vitamin C. Protects from signs of inflamm'aging,

surface dryness, DNA damage by UV and ozone. Interrupts glycation and improves collagen for firmer, smoother, younger-looking and acting skin

Trehalose | antioxidant cell protector and hydrator found in 'resurrection' desert plants that bloom after decades of dormant dehydration
