

Citrus Stem Cells + Hyaluronic Acid

Our Citrus Stem Cells + Hyaluronic Serum provides nourishing vitamins and powerhouse antioxidants to even out skin tone and reduce the appearance of fine lines and wrinkles.

Benefits are noticeable from Caribbean Orange Oil, Citrus Stem Cells, Vitamin C and Hyaluronic Acid

Caribbean Orange Oil: orange oil stimulates collagen production in your epidermis, which reduces the visual effect of dark patches. Protects from damage: The high amount of limonene helps protect your skin from damage from environmental aggressors. Improves the appearance of pores: regulates sebum and has an astringent effect on pores.

Citrus Stem Cells help to strengthen collagen fibers which smooth the skin by influencing collagen growth. Regains skin elastic properties and encourages skin stem cells to activate.

Vitamin C encourages new collagen to grow and helps to protect the collagen you have. Protects skin from issues of sunburn, balances skin tone and hyperpigmentation, dryness, and sagging wrinkled skin.

Hyaluronic Acid is a naturally occurring glycosaminoglycan found throughout the body's connective tissue. HA acts as a humectant to draw water from the environment. The healthier the lipid barrier the more skin can protect itself from the ongoing environmental pollutants.

How To Use

Clean skin before using. Apply 1-2 pumps to the fingertips and gently massage on face, neck, & chest each morning.
