### Key Ingredients:

Vitamin C has a blend of boosting Citrus oil, which has anti-inflammatory and astringent properties that help heal blemishes and balance the skin's surface oil.

Avocado Oil, high in vitamins and essential fatty acids, hydrates and softens skin texture. It also has antioxidant and anti-inflammatory properties, which increase collagen production. These properties are helpful for eczema or psoriasis.

Rosehip oil contains retinoids that help prevent blackheads, reduce inflammation, and brighten skin. It also contains linoleic acid, a fatty acid that helps reduce acne and eczema.

Sunflower Seed Oil has a high concentration of oils and vitamin E that help to keep the skin's natural barrier healthy. It also has emollient properties to help skin retain moisture and reduce TEWL (trans-epidermal water loss). It is rich in antioxidants and helps protect skin cells from UV rays and environmental aggressors. The linoleic acid in sunflower oil has anti-inflammatory properties that soothe conditions like eczema. Sunflower seed oil is non-comedogenic and helps many skin types, including acne.

How to Use: Apply on clean skin or mix a few drops into your favorite foundation for a long-lasting, dewy look.
