

Skin Barrier Stabilizer

Our Skin Barrier Stabilizer comes from Marula Fruit and has both Oleic Acid (Omega 9) and Linoleic Acid (Vitamin F) which helps to diminish dehydration and harmful bacteria on the surface of the skin. This helps with acne breakouts, and skin flaking, and boosts wound healing and skin. regeneration

Marula Oil is loaded with antioxidants, essential fatty acids, and amino acids.

Linoleic Acid helps plump skin without adding weight. It strengthens the skin barrier so the skin can protect itself from UV rays and environmental aggressors which causes free radical damage leading to skin aging. Acne skin tends to have less linoleic acid than oleic acid making it beneficial for hydrating stressed acne skin.

* **Caution:** For external use only. Avoid contact with eyes.
Keep out of the reach of children.

Organically Produced Ingredient 100% Cold Pressed

Directions: Apply a few drops daily or as needed to the entire face or lengths of hair.
