

Skin Be Clear

Beta (1-3) Glucan | patented Biological Response Modifier (BRM) from baker's yeast; challenges skin to correct itself to minimize multiple imperfections AHAMinoPlex™ | time-released glycolic/amino acid complex ensures maximum AHA delivery with minimum discomfort

Mandelic Acid | non-irritating AHA brightens all forms of visible hyperpigmentation, helps clear pores, controls surface blemishes, increases cell turnover, and dissolves unwanted surface cells for an immediate fresher, smoother after-feel

Lactic Acid | lactic/amino acid acid complex ensures maximum AHA delivery with minimum discomfort. Betaine Salicylate | time-released blend of betaine from sugar beets complexed with the pore-clearing BHA, salicylic acid Licochalcone | powerful skin calming molecule from Chinese licorice; targets multiple causes of imperfections to deliver fast-acting results

Spirea Ulmaria | dermatologist-tested extract of meadowsweet, an herb rich in skin calming and pore purifying phenolic acid and a natural skin-defense booster Sodium Hyaluronate | bioactive form of the super-hydrator, hyaluronic acid

Zinc PCA | sebum-reducing zinc is combined with a hydrating delivery vehicle for maximum activity

Allantoin | potent soothing molecule derived initially from comfrey root

Panthenol (ProVitamin B5) | A chirally-correct form of panthenol, calms and encourages repair of skin's surface; delivers deep hydration

FRAGRANCE: None

pH 3.9

SOLUBILITY Water-based gel

Home Care | Apply a small amount of gel (about the size of a medium green pea) over clean, dry skin AM/ PM or once a day. If blending with other products, apply the size of a small green pea. Allow 5 minutes for the product to absorb before applying makeup. Always wear a minimum of SPF 15 sunscreen during the day.
