Yikes I changed Host for my website and they lost my reviews. So am starting over and would appreciate if you would text a review to 8436697640 or email to evewatts10@gmail.com. I really appreciate a review.

I have been a client of Eve's for 20+ years mainly for waxing. At the age of 80 I decided that my skin looked tired. Eve started me on a regiment and even I am amazed at the almost immediate change in my skin!. I guess better late than never. Than you Eve

I have been getting my makep and skincare products from Eve at Second Glance Skin for many years. She always know what products are best for my skin and she suggests new products that I might like to try. Fortunately for me, she takes ALL the guesswork outof my makeup and skin care needs

I have been using Eve as my esthetician and her products for over 20 years. My face looks great considering I'm 74 years old. I repeatedly get compliments on my skin and how yound I look I certainly would recommend her for great skin care.
